

INION POLKU™

EDUCATION WEBINAR PROGRAM 2021

We are delighted to invite you to the Inion Polku™ education program. The program is built to provide you up-to-date information about Inion products, materials and clinical experience. The Inion Polku™ program consist of clinical literature, surgical videos, animations, surgical technique guides, OR guides and webinars.

Our education webinar program has been designed to provide useful information about the Inion technologies, products and their use in surgical applications. During this webinar program we have the special opportunity to listen to surgeon guest presenters on three different topics as well as our own product experts. Please see the Inion Polku™ webinar program below.
